Outside Misc. are those outside Ohio that may occasionally check in.													

Total Stations and Active Counties
by Rolling Month

Net Activity for December 2021 had a decrease in active counties with stations checking in relatively flat. There were two sessions for the month of December where propagation was unfavorable and stations may not have been able to copy net control. This illustrates the value of having both 160 and 80 meters in the tool box.

Net manager, Gary Hollenbaugh, has plans for a slightly different approach to training and certification to begin in January 2022 and there are planned discussions for areas of improvement of OHDEN with SEC, Stan Broadway.
