District 4

District 5

District 6

Added 1 member to ARES for Ashland County. Team was on standby for Feb 3-4 Snow Event.

District 7

What a start to the month, Winter Storm Landon moved into the area and several counties were placed on stand-by mode in case they were needed. Meetings, exercises and events are starting to make a come back on a regular basis with the pandemic starting to finally coming to an end and warm weather just around the corner, planning meetings are on the up swing. Looking forward to the rest of 2022. Delaware: Several members have been introduced to digital modes through the digi-nets. Fairfield: No Comment Fayette: No Comment Franklin: We continue to see future events check in with us for support later this year. These are good signs! We have adjusted with the COVID environment with regard to in-person meetings. Knox: None Licking: February was a busy month for us, as we are in the process of a leadership change and the transition will be taking some time to complete. We were on stand-by and/or alert mode and several members were monitoring the weather as well as the local repeaters for winter storm Landon. Newark experienced an outage of cell service and internet for about 8 hours and several members were monitoring the local repeater. Bret KD8SCL was in constant contact with Sean at the EMA office in the event we were needed to be activated. Services were restored with no issues for us to report. Work on our roster continues with periodic updates as some members are continuing to stay on as members. Madison: None Marion: We had our monthly training on the 24th. We had our EMA Director present an informational presentation on the upcoming total solar eclipse for April 8 2024. The prime location is Forest Ohio, we are within the totality area. At about 3pm we will have 3.5 minutes of total darkness. Marion has restaurants and lodging for the influx of people traveling to see it. She stated that ARES will be called upon to assist. Not too early to start preparing. Pickaway: The Pickaway County EMA asked the PCoARES to start up a total of 6 "standby" nets due to the severe weather that hit Feb. 3rd & 4th. Union: No report

District 8

Athens, Hocking, Meigs, Scioto EC comments: Athens: Several ACARA operators placed on standby to support Hocking County during ice storm response. Hocking: Hocking County ARES and Non-ARES members assisted the County EMA during the recent ice storm. We assisted with Communications, transports to the emergency shelter, well being checks, transporting supplies and road conditions. Meigs: The Meigs County team was asked to lower the Ohio EOC portable tower during a period of high wind. This portable tower is used by county EMA, EMS, and other county agencies while the new permanent tower is under construction. Scioto: On February 20, 2022 the Scioto County ARES conducted a simplex exercise to simulate the group providing emergency communications from key parts of Scioto County in the event of a failure of commercial communication systems. Members were dispatched to each of the county schools to establish direct communications to the ARES tower site and the Scioto County EOC. It was established that communications could be maintained throughout the county using amateur radio in the event of a catastrophic infrastructure failure. I wish to thank all those that participated in the exercise. Your dedication to the group and Amateur Radio is greatly appreciated! Chris Kemper KB8IIH Scioto County Emergency Coordinator DEC comments: ARRL VE session Monday, March 21, 7 PM Athens Masonic Complex. Saturday, April 2, Iron Furnace Trail Run at Lake Hope, Vinton County, Sunday, April 10 Athens Marathon.

District 9

District 9 nets continue with good turn out from most counties. Discussions lately on packet, D9 packet network use and winlink packet..... Jefferson co Acting EC, WD8SAB, submitted additional spreadsheet files with specific events/times in addition to monthly 212 report. A good way of tracking monthly events and time involved with Jefferson ARES. KE8WIP, has gotten echolink back on in Coshocton Co., mostly on ARES repeater 145.23..... There were no callups of ARES in District that I knew of. There was Skywarn activity in district with snow fall, ice, and flood warnings..... In addition to county reports on 212, D9 had 7 events with 29hr time, nets, communications, reports..... AA8BN D9 DEC

District 10
