N3FJP Software Updates

The N3FJP team has been busy releasing several updates and one addition to their popular contest logging software programs.

VHF Contest Log 6.6.8 has been updated to support the Solar Eclipse QSO Party (SEQP). While the SEQP includes HF, the existing grid square exchange in the VHF software was the best fit for SEQP's inclusion. Select Solar Eclipse QSO Party in the settings menu.

RAC Contest Log 3.6.6 has been updated to support VE3RHQ point assignment.

Additionally, South Carolina QSO Party Contest Log 2.7.6 has been updated to support the 2024 rules changes, and Delaware QSO Party Contest Log 1.0.1 has been released to support the Delaware QSO Party.
