The Reading & Radio Ranch: Notes from the Library

by Justin Patrick Moore, KE8COY

The Merry Month of May is upon us! The club was able to pick up some new books for the library with money from the club's split the pot earnings. Let me give you an update on two of the books we bought. The others will be covered in later months.

The radio hobby presents a spectrum of activities. Some of those activities are highfalutin and others are a bit low-brow. Said another way, some of those activities are in the upper reaches of the microwave band and others are way down in the low frequency ranges. To those two ends I thought it would be nice to have the following books for our club.

The International Microwave Handbook edited by Andy Barter, G8ATD. "The microwave bands are a very popular part of the amateur radio spectrum. They provide the space to experiment with many of the modern modes of transmission and, with the availability of high performance components, kits and ready built units, there is ample opportunity for everyone to take advantage of these interesting bands.

The Radio Society of Great Britain (RSGB) in partnership with the American Radio Relay league (ARRL) has produced this second edition of this International Microwave Handbook. As before, this book provides reference information and designs from around the world of microwaves. Material has been drawn from many sources including the RSGB journal RadCom and the ARRL publications QST and QEX. Alongside this, a truly international range of material from radio amateurs has been sourced from countries including Germany, Slovenia, Australia, South Africa, USA, UK and many more. The book contains invaluable reference material for those who want to understand these exciting bands.

The fundamental principles used to design and construct equipment for the microwave bands are all covered. Techniques and devices lead the reader to understand the wide range of modern components and equipment available that can reasonably be used by radio amateurs — these range from those that can be used by most radio amateurs to those that require a high degree of skill. This second edition of the International Microwave Handbook has been overhauled and updated to incorporate the many advances that have led to an easier and more cost effective entry onto the microwave bands. For those considering the move to the microwave bands or those already active, this book is the best guide to this exciting area of amateur radio."

LF Today: A Guide to Success on the Bands Below 1MHz by Mike Dennison, G3XVD. "Low frequency operating has never been more popular, and the introduction of a new international amateur allocation at 472kHz means that, with 136kHz, there are now two bands below 1MHz. *LF Today* distills nearly twenty years' experience of the low frequencies and aims to help you get the most out of operating in this part of the spectrum.

This third edition of *LF Today* aims to provide the reader with a firm knowledge of the frequencies below 1MHz and has been expanded to include the many revisions and updates. New to this edition are many projects for the 472kHz band, an analysis of the various modes used on the low frequencies, and how to receive and transmit on even lower frequencies at VLF. A guest chapter by Alan Melia, G3NYK, explains how to predict LF ionospheric conditions. This book includes practical information on antennas, receivers, transmitters and operating.

Written by the leading authorities on LF, Mike Dennison, G3XDV this book aims to help the beginner who wants to try out this fascinating amateur allocation, but it is also of great value to anyone already active on the band who wants to expand the knowledge of the bands.

Continued on page 4

Continued from page 3

In short, *LF Today* is a one-stop shop for anyone seeking information on amateur radio operation below 1MHz.”

P.S.: There was one real book among the imaginary books in last months Reading & Radio Ranch. Do you know which was the real title? If someone writes to me with the answer I will buy a copy of that book and donate it to the club library. Email me at: justinpatrickdreamer@gmail.com

Brunch Bunch

by Bruce Vanselow N8BV

The next Brunch Bunch will be held Saturday, May 11th, at 1pm. The location for May is Steak 'n Shake, the Oakley location. This Steak 'n Shake restaurant is located at 4949 Ridge Avenue, 45209.

“Steak ‘n Shake was founded in February, 1934 in Normal, Illinois. Gus Belt, Steak ‘n Shake’s founder, pioneered the concept of premium burgers and milk shakes.

For over 85 years, the company’s name has been symbolic of its heritage. The word ‘steak’ stood for STEAKBURGER. The term ‘shake’ stood for hand-dipped MILK SHAKES. Gus was determined to serve his customers the finest burgers and shakes in the business. To prove his point that his burgers were exceptionally prime, he would wheel in a barrel of steaks (including round, sirloin, and T-bones) and grind the meat into burgers right in front of the guests. Hence arose the origin of our famous slogan, ‘In Sight It Must Be Right.’

After 85 years, we are continuing Steak ‘n Shake’s tradition of serving the country’s best, freshest, and tastiest burgers and shakes.”

For a look at the menu as well as a map: www.steaknshake.com

Remember that the Brunch Bunch always meets the second Saturday of every month at 1pm at a location to be announced each month. If you can’t join us this month, maybe you’ll be available to join us in the months ahead.

As always I’m looking for suggestions on what restaurant you think might be a good place for the Brunch Bunch to visit in the future.

Brunch Bunch Recap

by Henry Rosche III, N5AWB

Luann and I would like to say we had another good time at the Brunch Bunch gather this last week. They have all been nice. We got to sit near a star, Miss Kitty who did a commercial for Huntington Bank. Got to meet her dog as well. We filled one table with 9 folks and Ted had to sit at the Aux table. Some folks ordered chocolate chip or blueberry pancakes and they can with the fruit or chips sprinkled on top, not in the batter. This led to the banana pancake joke of one laying on the stack of pancakes. Quickly went south with honeydew, cantaloupe and watermelon as fruit. Good laugh though! Rubber child ducks are a theme at the restaurant; we should have shown them a ‘Rubber Duck’.

Bylaws Update News

Some of you may recall that a few years ago, we attempted to update the bylaws of the club but failed to achieve quorum to do so. After further consideration and much discussion, the Board has decided to once again ask the club to consider amending our bylaws to modernize them and align them with the standards of modern organizations. At the April Board meeting, the board voted to present an amended set of bylaws to the club and ask the club to vote on them at the June meeting. Presented below are the current bylaws, as adopted June 5th, 2012 followed by the proposed amended bylaws for your consideration. The board believes that the proposed bylaws are in the best interest of the club. You may direct questions to Ryan AC8UJ at president@ohkyin.org or ac8uj@arrl.net.

Meeting Location

We will meet at Lockland Church of the Nazarene, located at 335 West Wyoming Avenue in Lockland. It's right off I-75 at exit 12 (the Reading/Lockland exit southbound and the Davis St./Lockland/Reading exit northbound). Enter through the glass door by the mailbox under the awning. Be aware that there are about 5 steps down into the meeting room. Thanks to Steve N8PUP for making this facility available to the club for our meeting! We will also continue to offer Zoom for those wishing to join us online. If you have any symptoms of illness, please join us online to protect other club members.

Consider a Donation to OH-KY-IN

Did you know that OH-KY-IN ARS has been recognized by the Internal Revenue Service as a 501(c)(3) charitable organization? That means anyone who itemizes on their Federal return can take a charitable deduction for a contribution to OH-KY-IN, as long as it qualifies under the general rules applicable to all other charitable contributions (for example, the contribution must be in cash, or other property which the organization has agreed to accept; the value of volunteered services is not deductible). Membership dues, such as the cost of a life membership, may even be deductible; consult your own tax advisor for details if considering that. Posthumous donations by Will or by naming the organization as beneficiary of a financial account are also welcome.

Please remember to **renew** your membership!

We need all of you to keep OH-KY-IN going strong!

OH-KY-IN Amateur Radio Society has been a leading amateur radio organization in the Cincinnati, Ohio area for more than 60 years. We are a 501(c)(3) nonprofit organization dedicated to the advancement of all things radio. No matter the amateur radio interest, OH-KY-IN members are involved.
