Total Stations and Active Counties

With the switch from daylight savings time and the winter schedule of running a Sunday net on 80m and a Tuesday net on 160m, a decrease in total stations was experienced for the month of November. Much of this is attributed to just forgetting about Sunday and net management is considering ways to reinvigoerate participation. Auglaize County was added to the category of new counties for the net with a new station, W8CX, and a new station, K8RHJ, from Cuyahoga County was added.
