## *A Note from Our Membership Chair*

Here we are — into the second month of 2026 already! I'm writing this after the weekend snowfall — and sure glad it's over.

With the new year, comes the time for all of us to renew our membership for the year 2026, if you have not already done so. I have already received many renewals — thank you!

Joining and/or renewing is quite simple.

The easiest way to send payment is by using ANY major credit/debit card or PayPal using this secure link:  
<http://renew.ohkyin.org/>

You can also choose to mail your payment with a printable form at the following address:  
<http://www.ohkyin.org/docs/Applications/Membership%20App.pdf>

As always, if anyone has any questions on joining or renewing your membership, please contact me at KA3MTT@YAHOO.COM. You can also call or text me at the following number: 859.760.9262

73,

Nathan Ciufo, KA3MTT

## Winter Field Day 2026

by Ryan Owens, AC8UJ

OH-KY-IN once again held our Winter Field Day event at Harvest Home Park in Cheviot on the last full weekend of January. This year definitely put the “winter” in Winter Field Day. With a forecast calling for highs in the teens and single digit temperatures overnight, that alone would have been a real test. On top of that, we had a Winter Storm Warning in effect lining up almost perfectly with our timing, with snowfall predicted to start about 2 PM Saturday and continue throughout the day Sunday, with a possible total accumulation of up to 14 inches! Considering all of this, we went into the event with a lot of caution. While there was definite debate about whether to cancel or not, canceling due to winter weather seemed a bit against the purpose of the event, so we decided to press on.

We began setup in earnest around 11 AM Saturday. In light of the weather, we decided to forego our normal linked dipole antenna and try for a sturdier, easier to take down end fed running from the corner of the barn for our SSB station. This would allow us to avoid coax running across areas that would be snow covered during cleanup and reduce the chance of ice breaking the antenna. After a considerable amount of experimentation and adjustment, the crew finally came up with a configuration which gave us reasonable SWR readings on our bands of interest. George N3VQW also set up his digital station for PSK31 work using his normal vertical wire antenna.

In addition to our normal operation, we also had a scheduled visit from a Scout group at 2 PM on Saturday. This included Adam KF8EKW, a 9 year old Extra class operator, who ended up being one of our rock stars on the SSB station, logging about 40 contacts in about an hour of operating.

The snow ended up arriving a bit later than predicted, finally starting to fall at perhaps 5 PM or so. Conditions began to deteriorate and participation was understandably dwindling quickly, so those of us still there made the decision to terminate our operation at about 9 PM. Between concerns about the safety of people staying overnight in the extreme cold and the likelihood of challenges getting home on Sunday, it seemed like the right thing to do.

Here are some stats from the operation:

- 201 total contacts, with 200 on 20 meters and one on 80 meters
- 196 phone contacts and four digital
- Our best run was 53 QSOs in 34 minutes
- 49 sections contacted
- 36 states contacted

Thank you to all who helped in various ways, whether taking a turn on the air, providing needed supplies like tables, chairs, heaters, etc. or just stopped by for moral support and to lend a hand where needed. Despite the challenges, it was still a good event and reasonably well attended all things considered.

## *February Meeting is Open Forum Night*

Based on the success of the open forum night last August, we're going to do something similar once again. We will have a very abbreviated business meeting followed by open time for knowledge sharing, conversation, etc. A suggested theme for this month is Parks on the Air (POTA) but we will see where the conversations take us. Bring something to discuss or just bring your experience and join in where you can. Hope to see you there!

Note: We **will** offer Zoom this time (unlike last August), but it will be a bit experimental based on how things progress during the evening.

## *Newsletter Submissions*

Please send any submissions you would like included in upcoming newsletters to Ryan, AC8UJ. All content is welcome! You can e-mail content to him at his callsign at [arrrl.net](mailto:arrrl.net). Please send all content either as plain e-mail text (attach any photos or graphics) or as a PDF file. Depending on the spacing needs of the particular issue, Ryan may reformat your content and adjust the layout. Because of this, if you send a PDF, please also include any graphics used as attachments.

Do you have a photo you think would look good on the cover? Send it! Cover photos must comply with a few requirements. Most importantly, like all content included in this publication, we must be able to clearly determine that we are allowed to reprint it. This can be proven in one of two ways. Method one is if it is original artwork you personally created and you can attest to it being your property, created by you. Method two is for you to provide clear evidence of where you obtained the artwork along with a reference showing that we are free to reproduce it (e.g. a link to the license terms for the artwork, written permission from the creator, etc.). Cover photos/art must also be composed in such a way that the masthead at the top of the cover page will not cover the main subject of the photo/art and space exists for the "In this issue" box. Images that relate in some way to radio are preferred but other pieces will be considered as well.

## **Consider a Donation to OH-KY-IN**

Did you know that OH-KY-IN ARS has been recognized by the Internal Revenue Service as a 501(c)(3) charitable organization? That means anyone who itemizes on their Federal return can take a charitable deduction for a contribution to OH-KY-IN, as long as it qualifies under the general rules applicable to all other charitable contributions (for example, the contribution must be in cash, or other property which the organization has agreed to accept; the value of volunteered services is not deductible). Membership dues, such as the cost of a life membership, may even be deductible; consult your own tax advisor for details if considering that. Posthumous donations by Will or by naming the organization as beneficiary of a financial account are also welcome.

**Special Note for Seniors:** Anyone who is over 70½ can make a donation to OH-KY-IN from their IRA and enjoy a tax benefit even if they don't itemize deductions, using what is called a QCD. Simply direct your IRA custodian to make the donation directly to OH-KY-IN (not payable to you) and the distribution will not result in any taxable income to you, even without itemizing deductions on your return. Contact your IRA custodian for the proper form to use.

Please remember to **renew** your membership!

We need all of you to keep OH-KY-IN going strong!

OH-KY-IN Amateur Radio Society has been a leading amateur radio organization in the Cincinnati, Ohio area for more than 65 years. We are a 501(c)(3) nonprofit organization dedicated to the advancement of all things radio. No matter the amateur radio interest, OH-KY-IN members are involved.
